

DND function introduction

Function introduction:

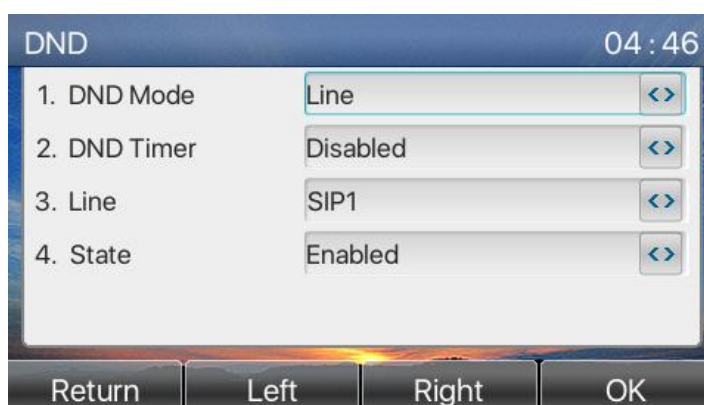

The user can enable the DND function on the phone to reject incoming calls (including call waiting).

Function features:

- 1.Reject the call, and the phone indicates missed call
- 2.It does not affect normal outgoing calls
- 3.The lines can be distinguished for enabling / disabling
- 4.The period time can be set to turn on / off undisturbed

Function use:

Press "Menu" - "Features" - "DND" through phone key operation, save and exit after setting.

After enabling [DND], the display effect of the telephone interface is as follows:

Note: DND icon turns red
